25  
Years

from the *Crow's Nest*  
Jaime Hogan

Boats need care and attention. What's the point of owning a fine sailing vessel if it sits on shore all summer? How many years can a sailboat last like that - sitting out in the weather, never on the water? I'd guess that most boats last about five years outside, until they give up and start to fade, rust, delaminate and die. Start sailing them - they last longer!

Several of our Saskatchewan sailors are battling it out at the Canada Games this week, down on Last Mountain Lake. Friday is their last day of racing. Go get 'em guys!

For those of you who need an excuse to get out to the club (re. paragraph 1), pay attention. To close out this centennial year in fine style we have:

1. The Cornroast Regatta August 27 - 28. There will be official racing, but this is also a good weekend to try it out for the first time! Bring out your spinnakers, trapeze harnesses, friends & family, and appetite for corn. Contact 382-5362

2. Sailing lessons will be taking place at the club all week from August 22-26, there will also be a few of us coming out to sail in the evenings. Contact 384-5461

3. The Wrap-up Regatta, September 24-25. I'm predicting an indian summer this year, so there should be an abundance of fall colours around the lake. Last kick at the can! Maybe it will even be warm (but if it's not you should still attend, we have a wood stove and hot chocolate to spare).

Float on!  
Jaime Hogan

p.s. Please take note of the official EC fall forecast below:

*Racing began the first Wednesday of May this year for Ed's Sunset Series Cup. Wetsuits or drysuits were the rigour for May, by the second week cold water was not a concern.*

*This year was a little different as the young sailors were trying out other types of boats, rigs and crew for the Canada Games in Regina, which is ongoing as you receive this newsletter.*

*Thanks to Ben for organizing the race officers to give them a little more experience on the water to prepare for Canada Games.*

*The Cup recognizes the top five overall and the top five 18 & under. The unique feature of the Cup is young sailors are able to reach top 5 in Overall as well as 18 & under. Congratulations to those sailors who have achieved recognition for their performance.*

## *Mountain Madness Results*

Laser Radial: 1-Logan Campbell, 2-Sydney Byrns, 3-Payton Byrns.

Laser: 1-Mark Lammens, 2-Reid Graham, 3-Corey Coons.

Byte: 1-Erin Graham, 2-Kristine Coons, 3-Tanner Ross.

Laser 2: 1-Peter, Kendall & Billy Ross.

*Mountain Madness was also organized to assist the trial process for the young sailors and race officers heading for Canada Games.*

*Many thanks to our Social crew who organized an excellent Steak Barbeque and all those who were involved in putting on this excellent event.*

*We look forward to more fun on the water. Now that the hectic training and hype of the Games has almost past, we can again direct our efforts to the enjoyment and sharing of sailing for all, whether young, old, new, or experienced. Sailing certainly is a sport that draws people together and spans all age groups; it's great to see families sharing the experience.*
